Summit True Blue: 9am – 8pm

Valley True Blue: 9am – 8pm

Weather: Partly cloudy with highs in the upper 30's

Conditions: Machine groomed packed powder

Today's trivia – How many feathers does a penguin lose when it molts?

Once a year, penguins experience a catastrophic molt. (Yes, that's the official term.) Most birds molt (lose feathers and regrow them) a few at a time throughout the year, but penguins lose them all at once. They can't swim and fish without feathers, so they fatten themselves up beforehand to survive the 2-3 weeks it takes to replace them.
